 - Ph.D.
- From the session 2008-09 all the courses except Ph.D Program has been converted into semester system according to ordinance 31 of the university.
- Due to the semester system some new subjects have been added in curriculum and the updation of the syllabus for all the semester is in final stage.
- Evaluation process is also revised and some practical oriented area of the course like “conditioning”, “match practice” which were not earlier evaluated are now come under evaluation process and students are given marks for that.
- Students’ feedback are collected at the end of each semester and evaluated by a committee.
- The quality and weaknesses of the teacher are evaluated on a percentile scale and have been given back to the concern teacher for self improvement.

Teaching Learning & Evaluation

- The school is having only two multimedia projectors in which one is fixed in a classroom and other is used as portable multimedia projector.
- The department was shifted in its new building from the session May 2010
- Some of the teachers are using multimedia projectors and other teachers are also motivated to use multimedia projectors.
- For improving the learning process students will be given the following types of assignment:
 - Evaluation during Group Discussion
 - Video graphy of Presentation of Performance
 - Internship
 - Paper Presentation
 - Investigative Projects
 - Application of Principles Learnt for Practical Problems
 - Fabricating and Assembling Equipments
 - Reports on Field Trips / Industrial Visits
 - Power Point Presentation of Seminars
- The teachers will be motivated to evaluate the class test within one week of the test and will show the answer book to students.
- The end semester exam answer sheet will be evaluated as central valuation system the same day or the next day of the exam to declare the result within three days after the completion of the exam.

Research, Consultancy & Extension:

- All the faculty members have completed their Ph.D.
- One faculty has just completed the UGC research project and one has submitted.
- The teacher will be motivated to publish more research and to attend conferences and seminars for refining their professional knowledge.
- The students and faculty are also providing consultancy services to various schools, college, and other organizations in conducting the sports meet and this practice will continue in next session also.

Infrastructure and Learning Resources:

- A small computer lab with eight computers has been started in the old building.
- Establishment of athletic care and rehabilitation center is under process.
- The school has started M.Phil from 2008-09 session and thesis is compulsory for the students so school is also planning to purchase research equipments of at least 5 Lacs rupees.
- The school has also purchased a tractor and purchase of roller is under process, in the next session these equipments will be used for ground maintenance.

Student Support & Progression:

- Intramural shall be continued as a regular program of the department for giving the students the opportunity of participation and organization of sports tournaments and competition.
- Cultural and literary activities will be continued for next session to develop the students' inherent qualities.
- Guest lecture will be organized for students on personality development and language improvement.
- Anti ragging committee will be formed to stop the ragging completely.
- Consultancy service records will be maintained.
- Placement facility, career guidance, and counseling service will be continued.
- More classroom seminars will be initiated.

Governance & Leadership:

- Monthly faculty meeting for analyzing departmental activities will be held.
- Faculty meeting with students in every month will be conducted to know the feelings of students regarding departmental activities and their suggestion will be incorporated.
- Academic autonomy as per ordinance 31 is being exercised and it will be continued.

Innovative Practices:

- Meeting of Quality Cell shall be organized regularly. The cell will function effectively.
- Teacher – Parent Association meetings shall be formed and meetings shall be organized.
- Personality – Development program shall be introduced.
