

Sub. :- NAAC Accreditation

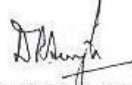

NAAC required activities have been instructed from time to time. Minutes of meetings have been circulated for compliance. UTDs are also required to submit corrected final version of their reports at the earliest.

No UTD should lack in the steps for preparations for NAAC as under : "Preparation of course plans, updating curriculum, academic flexibility in curriculum, interdisciplinary, remedial, orientation, induction and advanced learner courses, catering to differential requirements of the students, mentoring and counseling of students, preparation of departmental academic calendar, preparing prospectus with departmental latest information, organizing student seminars, student-centric teaching-learning processes, ensuring availability and use of e-resources and ICT, feedbacks and suggestions of stakeholders, student feedbacks, alumni, regular departmental committees, academic and administrative audits, departmental awards for excellence in research, innovation, sports and cultural activities, support to students for research papers and conference presentations and other steps instructed from time to time."

UTDs are required to follow teaching and examination calendar strictly.

You are therefore advised to take very sincere efforts toward achieving excellence and comply with the instructions issued from time to time.

All HOD's should take appropriate and timely steps and report the compliance of the above to my office within 15 days.
